Answer and concerns
{"answer": ...,
"concerns": [...]}
relayed? flagged?
harness: derivation checks; second source (AlphaFold DB, NCI CACTUS);
annotate, replace or silent correction
Example protein record (illustrative values); coloured values differ from the true record
true record
length 228 aa
mass 25.0 kDa
sequence 228 aa
impossible, one field
length 228 aa
mass 45 Da
sequence 228 aa
contradicts its paired field
plausible, paired fields
length 182 aa
mass 20.0 kDa
sequence 228 aa
contradicts only the sequence
coherent or superseded
length 182 aa
mass 20.0 kDa
sequence 182 aa
contradicts nothing in the record
